CONFIDENCE IN OUR CLADDING.

NORclad offer a range of home grown and imported timber species; Western Red Cedar, Larch, European Redwood and more. Our timber is machined for all applications including cladding with T&G, face or secret fix, PSE and chamfered items.

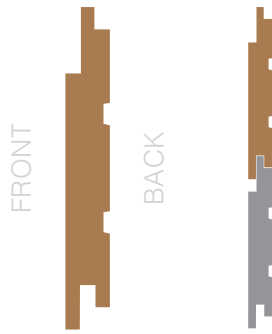

High Pressure treatment using Koppers performance chemicals allows us to offer a 30 year warranty when using MicroShades 'Brunnea' or MicroPro treatment (out of ground contact).

Our in-house spray facilities provide Fire Treatment to Euro Class B/Class "O". We also offer paint and pre-coating using premium manufacturers.
